# Every NSA dispute, in-house and on time.

Avertyn is software for TPAs to work open negotiation, federal IDR, balance bills and provider agreements for every plan they administer. It reads each notice, counts every window, drafts from the rule and fills the IDR Gateway's forms. A person on your team approves every step.

**2.56M**
Federal IDR disputes started in 2025, about 75% more than in 2024.

**85%**
Of payment decisions from July to December 2025 went to providers.

**445%**
Of the QPA: the median award when providers won in 2025.

**Nov 13**
Since November 13, 2026, IDR forms can be filed in CMS's new IDR Gateway.

## What Avertyn does on every case

01 **Opens the case from the notice**
Email, fax, upload or a phone photo. Read, filled in, confirmed by a person.

02 **Counts every window**
CMS deadlines and your own targets, in business days and Eastern time.

03 **Gives it to the right person**
Intake, then Open Negotiation, then IDR, to whoever has the fewest open.

04 **Screens eligibility and the QPA**
Every finding with its reason, for your team to weigh.

05 **Drafts the reply and the brief**
From templates that cite the rule, with the arguments IDR decisions cited most.

06 **Fills the Gateway's forms**
A helper fills each form in your browser and stops before Submit.

## The windows Avertyn counts on every case

Each one is fixed by federal rule.

**30 business days**
to settle

**4 business days**
to start IDR

**3 business days**
to answer the entity selection

**10 business days**
for offers

**30 calendar days**
to pay

## WHY SOFTWARE, NOT A SHARE OF SAVINGS

### Spreadsheets and staff

You keep control, but deadlines are counted by hand, CMS forms are filled one at a time, and what wins leaves with the people who know it.

### A vendor paid a share

Someone else carries the volume, but the fee rises as results improve, and your plans' briefs and know-how stay with the vendor.

### Avertyn

Your team does the work, with software that does the routine. A flat price per dispute, and every case, brief and result in your own workspace.

## FOR EVERYONE AT YOUR TPA

OWNER OR CEO

### Margin and the client

A price per dispute, readers free. Results by plan for each sponsor, as a PDF or slides, under your logo. Your record stays yours.

OPERATIONS

### Volume and deadlines

Routing by team, CMS deadlines kept apart from your targets, hand-offs when someone is out, workload, timesheets, single sign-on and a full audit trail.

CLAIMS TEAM

### Less typing, better briefs

Cases that open themselves, drafts that cite the rule, a brief builder that knows what won, the Gateway filled for you, and alerts on the phone.

## ALSO IN THE SAME WORKSPACE

Balance bills sent to your members, single case agreements, direct contracts, financial assistance, and Drive: every file filed by plan, case and provider, with redaction and signing.

## PRICING

| Starter | Team | Enterprise |
|---|---|---|
| **$299** a month | **$950** a month | **Custom** yearly |
| 30 disputes a month · 2 writers | 150 disputes a month · 5 writers | 500+ disputes a month · unlimited writers |

People who only read are free. For scale: Team is $6.33 a dispute at its full allowance; the federal agencies estimated plans' and providers' internal cost to submit IDR materials at $857 a dispute (original IDR rule, via Health Affairs). Context, not a promise.

1

### Try it on sample cases

Three people, at platform.avertyn.com. Readers free. No card.

2

### Get a free exposure report

Ask at avertyn.com. A person replies with what it needs.

3

### Be one of the first 20

15% off Team for life, through Dec 2027. Real claims under a signed BAA.
